Health and fitness Apps (Free on IOS and Android unless otherwise stated)

Nutrition:

- **Lifesum:** Helps to build a healthy lifestyle with plans for losing weight, gaining muscle mass or maintaining a healthy body. Users choose a fitness plan that's right for them, and then record exercise, water and food intake manually or with a bar code scanner; the app gives you feedback and recommendations based on fitness goals.
- **HealthyOut:** eating out doesn't have to be a guilty pleasure. Many restaurants offer healthy options that align with even the strictest eating plans. HealthyOut helps you find them. It provides access to menus of local restaurants, and matches items on their menu to your dietary needs and preferences.
- **Calorie Counter & Food Diary:** To get the most out of the tool, enter your nutritional goals or weight loss goals, and use features within the app to plan your meals and monitor your adherence. Useful features include the ability to scan supermarket barcodes to get nutritional information that helps you make smart choices while grocery shopping, and the tracking of macronutrients such as carbohydrates, protein, and fat. For some users, cost can be a concern, because full functionality is not unlocked without an annual subscription of \$40 per month.

Fitness:

- **MyFitnessPal:** MyFitnessPal is a powerhouse app, with an enormous food database, barcode scanner, recipe importer, restaurant logger, food insights, calorie counter, and so much more. Whether you're monitoring your nutrition to lose weight, change bad habits, build muscle, or just hold yourself accountable for what you're eating.
- **Fitocracy-** Fitness Collective. Track workouts, build support, challenge yourself and your friends, all with the help of our expert coaches.
- **Daily Yoga:** Daily Yoga inspires yogis worldwide with the largest yoga pose base. Enables you to practice yoga on all mobile devices and platforms.
- **Nike Training Club:** Brings you a huge array of workouts for every fitness level- plus the Nike Performance Council's tips on training, nutrition, mindset, recovery, and sleep.
- **Asana Rebel:** Yoga inspired fitness. Workouts for Flexibility, Weight Loss, Strength & Balance.

Sleep, Headache:

- **Sleep Cycle:** Sleep Cycle analyzes your sleep and wakes you up at the most perfect time feeling rested.
- **Slumber:** Offers a combination of experiences to help you fall asleep. Many free options or \$40 per year of full access.
- **Migraine Buddy:** a migraine diary and tracking app designed by data scientists and neurologists. The app allows you to record your migraine frequency and duration, pain location and intensity, and symptoms and medications, as well as to identify migraine triggers.
